# THE #1 SOFTWARE CHOICE FOR COURT REPORTERS

## PROVIDE REALTIME VIA THE INTERNET

Broadcast live video and text via the Internet — enabling entire legal teams to virtually attend a deposition from anywhere with Internet connectivity.

**LiveNote Stream Manager™**

## MANAGING AND ARCHIVING FILES

Store stenographic notes and dictionaries in your private StenoBank. It is a great alternative storage method and back-up strategy.

Keep the transcripts and records from older jobs in fully searchable archive folders that are organized just as you want them.

**StenoBank™**  
**E-Transcript Manager™**

## FINALIZING AND SECURING THE RECORD

Reporter Edition enables remote reporters to easily sign and submit transcripts to the production team's E-Transcript Manager inbox.

E-Transcript Manager is the leading way for reporting firms to create the popular E-Transcript format.

**E-Transcript Reporter Edition™**  
**E-Transcript Signatures™**  
**E-Transcript Manager™**

## FORMATTING AND ADDING MULTIMEDIA

Apply custom layouts and print settings to transcripts.

Synchronize video to transcript text, add hyperlinks to scanned exhibits, and bundle everything in one file.

The OCR Engine converts scanned documents into fully searchable content.

**E-Transcript Manager™**  
**MediaSync™**  
**Publisher™**  
**OCR Engine™**

## DELIVERING YOUR WORK TO ATTORNEYS

The free E-Transcript Viewer enables any attorney to view an E-Transcript you e-mail.

Send a compact disc with just transcripts or a complete Publisher Bundle.

Upload everything to your private Web Repository to give clients 24/7 access.

**E-Transcript Viewer™**  
**Publisher Bundle™**  
**iBinder Repository™**
